

Harbor Watch

A Water Quality Program

Are you a high school student interested
in environmental science?
Join Harbor Watch!

Through our educational internships, students can:

- Learn field and laboratory techniques
- Conduct data analysis and present findings
- Develop critical thinking skills
- Go on field trips
- Use state-of-the-art research equipment
- Work in two State of CT certified laboratories

Applications for Fall after-school internships accepted beginning August 1st. Please contact Sarah Crosby, Director of Harbor Watch, for additional information.
