A Dockside Celebration of Clean Water

## 2023 SILENT AUCTION DONATION FORM

### About Harbor Watch

Our mission is to improve water quality and ecosystem health in Connecticut. Since 1986, we have been monitoring local rivers and harbors, identifying pollution sources, working with municipal partners to remove pollution sources, and educating the next generation of environmental stewards.

As part of the larger organization of Earthplace, a 501(c)(3) non-profit, the work performed by Harbor Watch also supports the mission of Earthplace to build a passion in our community for nature and the environment through education, experience and action. Visit [harborwatch.org](http://harborwatch.org) for more information!
